PROFESSIONAL SUMMARY

Aspiring Data & AI Engineer. Skilled in analyzing customer behavior and marketing campaign data using SQL, Pandas, and NumPy to uncover actionable business insights. Have worked on AI-based projects involving API integration and prompt engineering, with experience building Power BI dashboards to track key marketing and sales KPIs. Currently pursuing B.Tech in Computer Science (3rd Year) and actively seeking roles in data and AI engineering within marketing and sales-driven organizations.

EXPERIENCE

SQL Developer Intern · Elevate Labs · Remote

- ▶ Wrote SQL queries to fetch and analyze data from relational databases for reporting purposes.
- ▶ Assisted in database-related tasks and query writing under the guidance of senior developers.

KEY PROJECTS

Netflix Clone

- ▶ Built a Netflix-style front-end clone using HTML, CSS, and JavaScript, replicating a responsive browsing experience with movie banners.
- ▶ Integrated the TMDB API as the backend data source to dynamically fetch and display trending movies, top-rated titles.

Data Analysis & Visualization Dashboard

- ▶ Used Pandas and NumPy for data analysis on structured datasets to understand the data better.
- ▶ Created Power BI dashboards to visualize important data and trends for better understanding of the dataset.

EDUCATION

B.Tech — Computer Science Engineering · 2023 – 2027

Delhi Technical Campus, Greater Noida · GGSIPU · SGPA: 7.9/10

TECHNICAL SKILLS

Languages Python, SQL, JavaScript, HTML, CSS

Data & Analytics Pandas, NumPy, Data Cleaning, Basic Data Processing

AI / LLM LLM APIs, Prompt Engineering, Basic understanding of Generative AI

Web & APIs REST API Integration

CERTIFICATIONS & ACHIEVEMENTS

Currently pursuing relevant certifications in AI. Active participant in college-level hackathons and technical competitions · Strong academic foundation with a focus on applied AI and data engineering · Pursuing NCC C Certificate — Army Wing, GGSIPU · PR & Outreach Sub-Head, CESTA — Delhi Technical Campus, GGSIPU (2024–2025).
